Oneness with God

“Focus Beyond the Darkness”

By

R. A. Feller

True Light

“We know how to love because God first loved us in an established pattern.” How do we respond to God’s love and show Him gratitude? Do we take what he’s done for us for granted or do we love Him back? If so, how?

What does, “We are to be rooted and grounded in the love of God,” mean? For as, “The deep calls unto the deep,” while “Be still and know that I Am God,” is being implemented, I have discovered the embrace of an inner hug of love that grafts me into an eternal moment with the Father. I respond by slowing my pace to receive Him, and embrace Him back, in the light of the truth that I see with the love of my heart where it joins with my mind. By accepting His plan of covenant, we are reunited with Him in His Kingdom come that we were separated from that we can join Him in doing His will on earth as it is in heaven.

He welcomingly permeates me with the essence of the elements of His present being which transforms and renews my thoughts. Now training me to focus on Him and love Him back without a disconnect by the way of His Messiah, I have an example of how to follow and meet Him in our shalom embrace. For the moment we enter stillness with God, the roots of our nature become altered as we enter into a relationship with Him. Our being grafted more deeply where we join and draw love from Him in oneness causes us to grow commingled with Him in restoration as we inwardly heal intertwined back into the life of His vine.

God not only came to give us an example of how to follow Him, but a gracious plan on how He would restore us if we humbled ourselves and acknowledge our wound called pride.

Punched spiritually by Satan's "Great Deception" to get Adam to enter into pride, through him we have been spiritually cut away from God's presence in our souls unto death. Adam has cut off all of humanity by altering the pattern of how to love God back. All of our psyches have been enmeshed with darkness along with God's diminished light. For after receiving Adam's blow against humanity, which is called original sin, as long as we remain in darkness, we experience separation from our God of life into death. This is the place where elements of God has gone missing from us. A physical bruise takes time to heal, an emotional one even longer, but we have been spiritually cut off to where our bloodline ends in death to our flesh. Now this is something that only God can heal through the Messiah by making a New Covenant with us through His regenerative blood that is alive. He has planned this out to restore our bloodline to join Him back in His circle of perpetual life that we may return to being one with Him again.

Eternal growth happens by starting out within God's seed of mercy, which calls to us through His Holy Spirit to look to Messiah that we by faith rejoin His circle of life from our trials in the Breadth. We can now understand His kingdom by connecting with His vine of grace by taking root through His mercy. We shoot upward with Him by being firmly planted in His shalom stillness through His seed of faith birthed in living blood. Piercing the depths and heights of the wave of time, all is opened for us to enter into grace, leading to His light, again by His mercy. Everything is perpetually established through the blood of Christ Messiah who allows us to be made whole by knowing Him in the purity of His holiness, which is also gradually revealed to us by His mercy. "For God so loved the world that He gave His only begotten Son that none should perish. For Christ did not come

into this world to condemn it, but that all may have everlasting life with Him.”

With peace for perspective, I can see what I am allowing in my life or not. Is something from my past pattern of doing things, surfacing into my present moment with God going to rob me of growing into a mature relationship with him in the future. “To the pure all things are pure and to the impure, all things are impure.” In this way we do not enter into judgement while being transformed while relying solely on God as our eyes are continually on Jesus Christ.

Lord Jesus, I ask that in whatever I do, You guide me to see You in it. I further ask that if my focus is off that you transform the essence of my being, not to be conformed to this world, but to be transformed into the likeness of your image by the renewing of myself into the light of Your Mind.

I slow down even more, which causes me to know with a perpetual deeper understanding of what, “I am the vine, you are the branches, unless you abide in me and I in you, you can do nothing,” is calling me to do. “Be separate, come out from among them and touch not the unclean thing.” I am called to join myself to God’s vine by loving Him back as “To much has been given much is required.” I ask myself the question, “Am I grateful? Yes is my answer, for what God has done.

It is essential that I remember at this juncture that God is doing the work in me and not me doing the work in me or I will move into the Godhead and prevent God from working on me, which would stunt my growth with Him. I must be leery of little spiritual foxes that nip at my affections of where I am joined or my relationship with Him can become severed due to pride after having been grafted into God’s vine.

“This people honor me with their mouths but their hearts are far from me,” as “Our righteousness is as filthy rags,” can negate

the grace of how God transforms us into holiness. “Many will come on the last day saying, Lord, did we not prophesy in your name? Did we not do mighty deeds in your name? Then I will declare to them solemnly, I never knew you. Depart, from me you evil doers.”

We must ask ourselves, Am I trying to change me or am I relying on God through His power to change me into the likeness of His being with each request as to not to negate His power to transform as well. For prayer is as a rock (ball of angelic light matter) thrown into a pool of darkness whereby its ripples change the course of adverse thought winds on the sphere of one’s path which breaks patterns to redirect all choices to grow towards eternal life. This is where messenger angels of light move into our thoughts as we draw from the vine of life as we allow God’s love to flow through us in each stage of growth in our relationship with Him.

Quietly listen for the still presence of God’s love and by this seed, allow the focus of what you’re pondering to be embraced by all of your thoughts till they've changed from boredom to life within. See the truth of the situation on His path and light will bring even more life, guiding you on your journey to further search out where love is being blocked from the joining of any Godly thoughts of truth. There is an eternal density that creates a pressure while persevering to displace the dark veil that hides within the wave of time through the essence of elements in God’s property.

God forces back what rides on the dark winds within the wave of time. His stillness joins us when praying as we call out to Him. He is the rock, sword, and shield as the middle of the wheel, for everything revolves around Him who is the center of the essence of being in the whole of all creation. He invites us to be one with Him in the sanity of stability. For all else is in motion

and has no stability to it as it has been broken away from Him who is the foundation of stability Himself, who explodes us out of all darkness with His light. Therefore it is necessary to join ourselves to Him to come into a complete state of existence as human beings or be deluded away into darkness.

Through the bond of a flesh and blood, divine, and regenerative resurrection living sacrifice, we are joined to the eternal vine of life by Him perpetually regenerating us. Dwelling with Him in His kingdom, He has become known in an intimate relationship where we no longer survive by floating around in darkness, but thrive by entering into His kingdom of true light. In light, there is a sight that keeps us in a place of stability where everything comes into balance when God's still and firm foundation has been built into us.

A good and balanced mood cannot be hidden away. I feel that it was out of this expression that creation came into being. For a joyous smile gives off a force of energy which can effectually change an atmosphere. God is the supreme being and the intensity of His joy is what manifests itself into creation as it says in the book of Genesis that, "God created and saw that it was good." This pattern holds true to the nature of God's love, for it is really an extension of contentment that now desires an action of good for others even above and beyond the desires of ones self. This embraces further goodness for the sake of others as God's goodness is the supreme act of love.

Orbits are cycles of complete expression where balance has a oneness around a cohesive center. Lucifer in a jealous pride tried to disrupt this balance, changing his nature from servitude to wanting to be served and had a name change to Satan in a darkened light. I have come to believe that angels are made out of a nuclear fusion of energy source as a heavenly acquiescent

soul without a physical body for the purpose of delivering messages that influence our lives.

Now as God maintains balance, structure, and order in the harmony of His magnificence in a state of perpetual being, Satan tries to keep man off balance to keep him away from bonding in love. In this way, ruling over mankind in a fallen state of being, keeping them within darkness of light, they'll not join God to walk in the balance of God's light in eternal Holy Light. For when love and truth are not in balance, we walk in disharmony. This keeps our senses dull and prevents us from having a full understanding relationship with God to know Him completely in eternal life. For without a physical glorified body, I do not believe that we can fully understand Him. "This is my commandment that you love one another as I have loved you that your joy may be full." The closest I have gotten is when I get acceptance from another and experience a mutual bond of a spiritual exchange of love. "For where two or more are gathered in my name, there am I in your midst." The experience of the exchange of love in the bond between two believers, having the pure essence of the elements within this bond is God Himself.

The truth of Gods love being the nature of His Spirit is one part of our relationship with Him, leveling off to be perfectly firm to contain His love on a firm foundation is another. "For everything that can be shaken will be shaken, so that which will remain will remain," shows a progression of stability of each stage in our growth with Him. A deeper desire for more intimacy in the union of oneness with Him motivates us to be virtuous that we can be as close to Him as possible in the purity of His holiness. "We love because God first loved us."

Man needs to be restored to the original glory which shone like Jesus, the second Adam while he was here on earth at the mount of transfiguration; here man is revealed to have originally

shined brighter than lightning. This happens through the regenerative flesh and blood that causes us to heal and grow into being in full union with God, which became broken through the seduction of a lie which altered man's perception. Fully alive is the way we were meant to be in the beginning. Although through man's fall into darkness, now knowing good and evil by the seduction of his choices, the completion of all circular cycles within His complete vision became broken. This caused his mind to go dim upon entry into the dark realm where Satan caused "man" to walk away from God and go missing. For God said to Adam, "Where are you?" And later it was revealed that he was missing due to original sin, for the essence of his being had been changed to see that he was now naked without the Holy Spirit to clothe him. Love answering divine love now needs to happen in the consecration of the Holy Eucharist for us to be filled with the presence of God's regenerative elements of essence to sustain us. The New Covenant was established by Jesus to reconnect mankind with God in the union of an absolute rest in the peace of shalom. In this way he could be with God intimately for the reason of bonding and knowing Him in a cohesive oneness of love once again.

The more we get to know him in intimacy through creation which testifies of His handy work off the springboard of religion, the more we enter into oneness with God by what has been established. Faith and reason guide us into stability by growing into the weave of the garment of His firm foundation. Every time we try to obtain something in our strength without waiting on God's timing, we become as a loose thread and as we head in the wrong direction without stability we become unraveled. Our pride leads us back into darkness until we are able to discern that we are losing threads of light by recognizing we've become distant from Him again. Growth will become stunted every time,

until it is realized that we have to surrender our trust completely to God. This happens by learning to humble ourselves when peace is lacking. So we need to learn to wait on God, for when we are outside of having peace, we're out of God's timing and in the wrong kingdom.

“To be absent from the body is to be present with the Lord.” As, “We are in the world and no longer of the world.” In God's kingdom we have come to exist in the light. Before we were in the world and of it where we wandered around in the dark in a state of confusion, for we did not comprehend how to fully live within what we could not comprehend.

Now, coming into the light, we are in a state of transition as our senses adjust to know God's love in place of the illusiveness of lust that never brought satisfaction while under the rule of the deceiver.

Spiritually, we are learning how to live on earth as it is in heaven in eternal life now that God has our attention. For after trying the any of everything and becoming drained, we realized that we were never getting anything for free, but buying an exchange of our energy. I was selling my soul for dissatisfaction till I stopped doing time in this world and spending it with God. I am grateful to God for His omnipresence, which creates everything with the peace of Himself as this has allowed me to discover Him while in the kingdom of Satan's spiritual realm.

God as creator has taken a piece of Himself while existing separate at the same time from His kingdom while encompassing the totality of everything as “Light and dark are alike to Him.” For when balanced and filled completely satisfied with His love, we are in oneness with Him.

When in darkness, whether by circumstance or prayer, things happen that offset our patterns in the dark realm. God intervenes by pushing against and altering our positions of being

swept by spirits that ride upon the unseen winds with His revealing and healing light. Like a rock thrown into the water, His ball of light energy sends forth ripples of angelic light for us to see and call upon God to enter our situations. The shockwaves of God allow the truth of what is ailing us comes into view that we can ask Him to remove it. Minds are changed here as now we have a choice to acknowledge and call upon God for Him to Change our circumstance by drawing us closer to Him and His love. This cycle of prayer allows us to start experience being guided into the full presence of the truth of God.

“If anything is asked in my name it will be granted him.” Drawing from the root of love from being grafted into God’s vine by mercy allows us to connect by grace to all of the fruits of the Holy Spirit. This gift is granted to all who join themselves to “The Truth” by learning to get honest with themselves and others. For Jesus also said, “I am the way the truth and the life and no man comes to the Father but by me.” Those who learn to join thoughts and emotions in God’s timing become restored. For healing takes place to join them to God’s vine by way of learning to express themselves in honesty. Honest people are on the pathway to fully join to Jesus who is the truth Himself as they are truth seekers.

In summary there is a complete cycle to prayer for those who walk perpetually in the Gratitude of what “The Truth” who is Jesus Christ has done for us.

First we draw from the truth of Him by accepting being grafted into Him by the sacrifice of living as pure truth in the reality of truth itself on earth as is in heaven. His blood sacrifice proves that what He said of Himself in His word is true and apart of the truth that we nibble on. Comprehending His regenerative resurrecting blood is a stage of growth in connecting to His vine to draw from the love of it in prayer. Having needs met by the restraints of God’s love as to not want to hurt the essence of the

truth of His love causes us to call on Him when the cravings of temptation come. For by the power of the essence of His living regenerative blood, His nature comes forth to deliver us from lying to ourselves about how a lie can meet our needs as something better than the truth. When we see this, the power in the light of the truth can set us free from any lying minion that hides while riding on the winds in the dark realm that we cannot see, which had baffled us.

“I will take out your heart of stone and give you a heart of flesh.” For all along, a heart transplant needed to take place where our hearts that were stone dead are made alive, and having our needs met to be compassionately pliable, we now have feeling hearts that have been healed by love.

Secondly, we turn things over to God as best we understand Him at this point, from where we are connected to the love of His vine of truth till further growth takes place.

Finally, when our transformation continues on in prayer without ceasing, we walk in an unceasing gratitude within the reality of God’s light. For the bond of love in the power from which we draw from God’s vine of life is thrown as a solid ball of angelic light which again smashes into the realm of darkness to send shockwaves of rippling energy into battle. These ripples of light further enhance us by altering the winds of darkness that minion spirits ride upon by pushing them back to redirect our thoughts or the thoughts of others towards the love of life. We now are set on the right path to make choices of life over death. Now having turned everything over to God in this stage of growth, we remain in the prayer loop of receiving and gratefully returning fond affections. Yes, by remembering our gratitude, which keeps us growing within His vine that pierces and continues to stretch out above and beneath the wave of time, we leave no place for the dark. For God has extinguished it by the

essence of His loving light where no room is left to come in between our eternal embrace with Him.

Affection

Jesus came so that we could embrace God in the oneness of love, which comes from Him in a full and loving cycle of embrace. “We love because He first loved us,” and when we are a part with Him within His circle, we are never alone. He in His light, becoming the door that leads us back into oneness through knowing Him intimately, allows us to persevere through the veil of darkness. “Study to show yourself approved.” Now we can encounter Him and the Father as one. We are now one in Him by learning to be grateful for the truth by walking in the gratitude of His presence, maintained by continuing to acknowledge Him above all else. Getting crowned with loving kindness and tender mercies upon our heads allows us to remain in His kingdom of light by grace. For we have learned to call upon the Lord to have our needs met to remain content. This is how being sober minded becomes a way of life. “Be sober minded, be diligent, for Satan is a roving lion seeking whom he may devour.”

The essence of God’s power happens by the transfer of our elements into Him, through Him, and by the unity of His Holy Spirit. Now we can choose transformation through His consecrated elements from darkness unto light. Line upon line, precept upon precept, here a little there a little, once we’ve been established to grow in the vine of Christ, eternal stillness brings us out from the spiritual winds to perpetually receive God’s

affections. For just as the five barley loaves of bread and two fish were multiplied by God's spoken word through Jesus as High Priest. Now all priests can become Him by Persona Christy to speak to the bread and wine to become a living flesh and bloodline through what is called consecration. Yes, these elements are transformed by Him being the High Priest through all priests to transubstantiate bread and wine into His body and blood. So, that we may have His flesh and blood refashion us by entering into our flesh and blood during this triple miracle at every mass.

Now just as Jesus and the father are one, we also are one as we know Him in intimacy as He is, when practicing what we understand in Spirit and in His New Covenant truth. Jesus is the first fruit of God in oneness as He leads us continually on into oneness by the Holy Spirit and New covenant that He has come to establish within us. God's Body and Blood through His consecrated Son, "This is my Beloved Son in whom I am well pleased," enters intimately inside us for a full exchange of expressive affection. For by this conjugal regenerative act, resurrection refashions us to be new continual creations in Christ Jesus with inward groans and utterances.

John (about believers) chapter 17 : 16-26, They do not belong to the world anymore than I belong to the world. Consecrate them in truth. Your word is truth. As you sent me into the world, so I sent them into the world. And I Consecrate myself for them, so that they also may be consecrated in (The Substance of) truth.

I pray not only for them, but also for those who would believe in me through their word, so they may all be one, as you Father, are in me and I in you, that they may also be in us, that the world may believe that you sent me. And I have given them the glory you gave me, so that they may be one as we are one, I

in them and you in me, that they may be brought together as one, that the world may know that you sent me and that you loved them even as you loved me. Father they are your gift to me. I wish that where I am they may also be with me, that they may see my glory that you gave me, because you loved me before the foundation of the world. Righteous Father, the world does not know you, but I know you and they know that you sent me. I made known to them your name and I will make it known, that the love with which you loved me be in them and I in them.

Understanding Faith

Jesus did not come to Give us a last will and testament but to establish a New Covenant and to fulfill the completion of God's law within us. "Jesus did not come to abolish the law but fulfill it."

Rightly dividing the word of truth allows us to enter into eternal life now spiritually while here on earth and later on physically as it is in heaven. The root of scripture must be addressed by looking to the New covenant in order to rightly divide the word of truth.

What does faith lead us to believe? Having a faith that points to resurrection which is caused by a regenerative living bloodline that does not die and joins us to God bodily is correct. Though how is this to happen when a part of Jesus's prayer in "The Our Father" states, "Thy kingdom come thy will be done on earth as it is in heaven."

We enter God's kingdom spiritually "on earth" now and receive eternal life. Then later on, "As it is in heaven," we enter God's kingdom physically to know Him as He is and become one with Him.

In being one with Him, we take on His elements by being transformed into the essence of His virtuous nature. Just as He is merciful with His children, upon this realization, we now understand to become more tolerant with one another. For on our journeys of being translated into God's kingdom to know Him in fullness, we also are purged into the refinement of His merciful craftsmanship, directed by His gracious Holy Spirit. God is gentle and polite in the way He convinces us to call upon Him through the free will of us asking Him to change us into the likeness of His image as the better choice. In this way, we receive the resurrection through His body, blood, soul, and divinity (energy of His nature) or reject it.

It is by our own free will of choice that we accept or reject God's plan of redemption, which allows us to later comprehend him as he is searched out to receive the love of His eternal embrace. "If you search for me with all of your heart you will find me." This is why Satan would want to prevent, by either perverting scripture, or distract us through the deception of anything to keep us from receiving intimacy with God. Because, once we receive true intimacy with God and become one with Him through Christ's pure living bloodline of life: the world, the flesh, and the threats of the devil disappear. For the surpassing beauty of God's love now restrains as the root of all scripture now becomes a Eucharistic interpretation from which we draw our sustenance after rightly dividing God's word of truth. A correct interpretation of scripture will always keep us away from any spin cycles of communing with the devil in the darkness of sin, for we are on the path of light where eternal life abides within.

No More Darkness

God originally left a heritage for us to create like Him to bless His children. For as a Father to us, he wants to leave His inheritance to His offspring. All of His wisdom was to be taught to us until Adam listened to Satan over God's voice. He chose to complacently see what would happen to his helpmate Eve if he did not intervene. This first man chose to watch his bride be seduced into the lust of sin and rather than defend love he became morbid instead.

As a fallen angel, Satan is still trying to steal the inheritance of mankind as this devil continues to seduce all into a darkness that would rob us from receiving God's love and inheritance of light. God's love is a respectful love, a reverent love, a holy love that knows how to listen to his Father. Our Messiah, who is the

love of the Creator's heart, bonds us in living blood to His eternal vine.

God's heritage allows us to see where other people are struggling in their life, for the purposes of sharing love effectively. Re-creation happens to transform, during an exchange of its ability to bond people together. Love is created through acceptance of others and never fails to hit the mark and renew.

Just by listening, we take on God's role as the still "Rock," for the spirits that are driving people outside of their beings to slam against in darkness and experience, a slowing down. Now in friction turned to heat, a fire gets sparked till all of transformation is completed in light. For when what was abusively confusing in motion gets burned away from all darkness it changes to fullness of life. The stability of God's patient loving qualities now offers a light for stable sight.

This is where God as love goes forth from us, emanating outwardly to all, but only if we continue to receive His grace to remain connected to His vine. Then continuing to abide in the joy of His company, many shall be redeemed back into God's inheritance through the reconciliatory living bloodline sacrifice of His Son. For by the sap of our Messiah's blood, we can be joined to remain connected to draw light from His living vine where seeing the path to eternal life opened, all can remain in it. "Walk in the light while you have the light that darkness does not overtake you."

For every time we get ahead of His timing, we disconnect from His Holy Spirit nature and move into the darkness of pride. Our old creature selves shall then return to sever us to remain under the veil of Satan's cloak when we knowingly make God's grace cheap with unrepentant attitudes. It takes time to learn how to fully express ourselves to remain connected to the boundaries within the construct of God's vine. Although His gift

of patience gives us peace for perspective as we learn to ask Him for it over time.

Discernment happens while learning to ask God for the wisdom of what belongs to His kingdom and what belongs to this world, our flesh, and the devil. Our choices are being changed to desires of virtue to want to remain within God's vine upon request till His love restrains us. Once taught that love is patient, kind, and gentle; not arrogant and boastful, it holds onto God's timing and never fails us in the face of dark adversity. Darkness will always continue to be exposed for those who know that something is seriously and seek until finding the truth beyond a mere look; it can never overtake light. For when love enters the creature it creates a kingdom with an atmosphere that is best for all. Everything that is whole (or Holy) expresses itself to the atmosphere where true light becomes love itself as once out from darkness things are not overlooked.

Focus Beyond Darkness

I am so blessed that mere words cannot adequately express what I'm feeling in the way of pure joy. Have I reached the end of my Journey? I know not. Yet, here is what has come into focus for me as of late: God is true light become love itself as God is love begetting love, for love to return within the kingdom of its

cycle. All of creation is an expression of Himself in Spirit and in truth. He is at the center of all of creation which comes into being through expression of mood and tone in a balance of harmony. We are in essence a part of Himself and yet not all of Himself at the same time.

Our Lord is seated (so to speak) at the center of all creation, holding all together in a sensitive, delicate, and balanced way. He is the central axle of the wheel of energy within a wheel of two realms, one in the here and now beneath the dark veil and the other by visions that I have seen many times from the other side. Existing with God, “Seated in heavenly places with Christ Jesus,” while looking down seeing myself on earth from perhaps a future time. I have encountered this demential door as well by watching God’s hand move through it by observing physical healings at times. (Suggested reading - “Gone Sane an Open Door to Inner Healing” by R. A. Feller, available at the online bookstore on Calingtoncastle.com) I did know that there are three or even more realms as St. Paul has said, that he was caught up to the third level of heaven. I believe that there are different frequencies of sight and tone of music and of color that allow us to pass through portals and gain entry into these realms as being impressed upon my mind while I write even now.

I see an astronomical amount of particles rotating around an energy field being dispersed out into creation and other particles coming back in like a magnetic field which possibly has a north and a south pole. I sense there to be an intensive deep abiding love within this field of energy of The Creator’s hand that creates energy which goes out and returns. The scripture comes to mind, “We love because he first loved us.” Love going out and coming back, so intense, augh! “Breathless!”

Perhaps we create things (or even worlds) ourselves through tones of music and sight without even knowing it. There is so much information coming in, I struggle to write to keep up with it.

“For now we look through a mirror darkly, but one day we shall know Him as He is as we shall see Him face to face.” The creator will embrace His creation or (world of love) that he originally created as a part of Himself. It is written in God’s word, “Before you were conceived in your mother’s womb, I knew you,” and “Though you make your bed in hell, I am there.” God, being omnipresent is in heaven or hell at the same time while knowing us in the testing ground of the breadth that passes through the wave of time in an unstable manner. He knows what he wants near to His heart or not. If man choses God, God chooses him back, but when rejected, God lets man go his own unstable way.

Never satisfied, a man who is left uneasy will be releasing all of his work efforts and creativity for himself and remain in a state of confusion. Nothing is for free, everything has a price, and those who remain focused on pleasing the creature within, from personal experience, keep missing God’s deep abiding love and feed their energy to minions instead. If we live for ourselves in this world, then our children will live for themselves on earth without heaven as well.

From the fall of man he has become unstable, “A double minded man is unstable in all his ways and let him not think he will receive anything from God.” Only a deceptive seduction remains, for a double mind is a divided mind, which means demonic and “What fellowship does darkness have with light.”

Unless, by the regenerative living bloodline of the Christ, man is refashioned back into the likeness of God’s image in eternal life by the mercy of His grace, suffering eternal damnation awaits. Therefore, what is unbalanced will always slide off of

God's wheel of balance which revolves around the center of His axel of energy of particles of light.

The Holy Eucharist is fed to us directly from the axel of God's energy to keep us joined to God to restore us to His vine by the mercy of His grace due to the unbalance of sin. "For where sin abounds grace abounds all the more." When a part of the nature of God is missing in us due to the pride, greed, lust of sin, we are not as dense in the love of eternal truth as a part of Him goes missing within us. This unbalance inside us due to sin throws everything off inside us as this is where, losing the virtues of The Holy Spirit, throws everything off balance and this is where grace must abound to compensate. "God delights in a just weight." So, God has compensated by the mercy of the property of His eternal living regenerative resurrection blood that is ever divine by His Son to hold all in place. Although, all living things that have rejected God's plan cannot be compensated (Be put back into balance so that goto match God in His fulness of love to be evenly joined to Him) unless they agree to being recalibrated from the fall of man. For where God's elements are missing, all continue to slide away from Him as they remain off balance. Anything not in balance is incomplete as someone that is on a slant cannot fully contain God's love to match the image of Him in reflection. This is what happens in recalibration.

All thoughts are spiritual and we are our freewill of choice to choose what is set before us in each independent environment we have been raised to be influenced in or not. All media, peers, government's within countries, and community patterns alike are such influencers. Can it be that mankind is being distracted away from a living God who has given us a living soul, for the purposes of bonding with Him in love?

Now like books on bookshelves within the libraries of our minds, these influential thoughts are placed while riding upon the

winds of dark light till landing inside, trying to flood our brain-celled libraries of mind. Thoughts that draw from spiritual darkness are like weeds in soil that lead us away from God's garden of light to choke out our life. When we lack understanding this, "The simple pass on and get punished" till God in His mercy gets our attention. There are many God-incidences that go unnoticed, some that may appear physically bad yet end-up working for our spiritual good. For "God works all things for good for those who love Him."

If you had a garden would you want to grow weeds that abuse as to choke out life? Hmmn, could it be that men are like Flowers that show forth the colors of a joyous life as to respect boundaries for breathing space is what God created for us? Little spirits (Minions) try to distract us away from being filled with God's love, so that we do not come into bloom to ignite with light. When imprisoned in darkness, sorting out the weeds of dark thoughts from among flowers in our minds can have no resolution without sight. A true church should shed light to cultivate true flowers to remain a garden in our minds. Walking on God's righteous path, there is light to be cultivated into His garden. "We are to be rooted and grounded in the love of Christ." This is why, "We are to take every thought captive unto the subjection of Jesus Christ" and be in this world and no longer of it. For here, flowers bloom, and weeds are plucked prayerfully out that as John the Baptist said, "That I may decrease that he may increase all the more," shall come to pass.

Jesus said of John the baptist, "No greater man was born on earth." To me this means that John had a pattern that we need to emulate. For in saying that he needed to decrease means humility to me, before God can increase in us in the truth of His light, life, and love as he came to prepare the way of the Lord for us.

Energy is never used up it's either transferred or stored, which holds true to the pattern of John the baptist who recognized his mortality before God. I suspect that just as everything decomposes through the food chain of insects and bacteria is formed... Is this happening in the physical realm as a spiritual message to us all as decreasing. For I see that Minions or demons work on off balanced souls without stability in the same way. For remember, "all of creation testifies of God."

When reality comes into focus when being stable the Messiah's firm eternal foundation, I sometimes get deep visions that are visual. This allows me to retain messages for deeper truth till these visions become revealed like the unfolding of a scroll. Whereas hallucinations of instability give you a feeling of being lost, a vision of pure reality gives you a sense of direction, for when God reveals a vision to me upon focusing on the eternal, it becomes more vivid. I then know that He is, which increases my faith and comforts me. This has happened to me well over a hundred times, a clear mind of light from God's love keeps me high on eternal life.

We as a human race have living souls. In this world where Artificial Intelligence has been created and is being placed into robots to do our bidding for us, are we negating God's word? For the scriptures say, "You shall work by the sweat of your' brow until you die." God's word has "Eternal Light." If we continue to call "Good evil and evil God," so to speak, Will not all light eventually go out and place us in the dark?

Right now we live in a tesseract reality where due to instability, everything falls back upon itself in an unknown spiritual darkness because we are in this world and live within its confusion.

Slowing down causes us to pause, ponder, and try to bring something else into focus that is not dark to the reason out our

understanding. For darkness is in such an accelerated motion which pushes everything into a blur in an attempt to keep things out of focus that we not discover the light of the sanity of His love.

The Messiah is known as the light of the world. He walks at a pace of absolute stillness from within which we catch up to when slowing down as we still our thoughts. For as friction is formed against motion by learning to be still, heat melts everything to fire and here we enter the kingdom of God, a pure light which contains eternal life.

Our Lord, being the first and only God-man to enter Satan's realm of death led the way, by depositing His eternal seed into death by His death. He is the way to exit the tesserae existence of a dark realm which infinitely keeps folding over upon itself that we in. Now sitting in the company of Knowing the Prince of peace, Jesus Christ, in God's kingdom of light when within the stability of Himself. With full freedom of expression in balance, we are now free to have our words of thought match with our emotions of heart at lips that praise God. Now we bond in love while speaking in the fulness of life where we kiss the King with them and live forever.

The mystical Body of Jesus Christ is working through the Holy Spirit in all those honor God by His merciful grace to be an available member with the gifts that He has given them. I serve God as an eye and a ready writer to Him which has given a path into His light and a purpose for living. Everyone has a gift to serve God with. A gift is something you enjoy doing. When I served myself with my gift all remained dark, but when I found the God of love in Spirit and in Truth, beyond the sky became the limit. I never looked back after truly finding Him and I suggest you join yourself to His Mystical Body with your talent(s) and do the same.
